

## AMAZING ANIMALS: AFRICAN GREY PARROT

I am an African grey parrot. Dr. Pepperberg has taught me a lot of things!

Doctor Pepperberg gives me nuts as rewards every time I give the right answer.

I can use a total of 150 words and make simple sentences.

Dr Pepperberg has taught me every day, just like a teacher at school.

I can create words by using different sounds of the alphabet.

I know the names of fifty different objects

I can tell what material they are made out of: wood, plastic, paper...

I can tell what colour and shape all the objects are: circle, square, triangle...

Discuss the answers to the following questions:

1. What do you find the most amazing about Alex? Why?
2. Do you think other animals can do some of what Alex does?
3. What do you think about the fact that a parrot can tell the shape, colour and material of an object?

Now write three facts that you have just read into your book. Then write what you feel about what you have learnt.
