

INTERNATIONAL DAY OF FRIENDSHIP

July 30th

5 to 7-year olds

Ask learners what friendship means to them.

Ask learners to identify qualities that people like finding in their friends and write the words on the board (e.g.: being honest, kind, funny, helpful, generous, clever, sporty, loyal etc...)

Ask learners to draw their friend on a piece of paper and to label what they like about them, using the positive words from the board. Learners can then give these out to their friends.

If you have time, you can link these ideas to pets. Ask learners if they think a pet can have any of the qualities written up on the board. ('Can pets be honest, kind, funny?' Etc...)
