

WORLD RABIES DAY QUIZ

- ▶▶▶▶ Get learners into teams of 4 to 5 and ask them to answer the 10 questions below. You could ask each group to confer when a question is being asked and to put their hand up once they're ready to give their answer.
- ▶▶▶▶ Example for question 1.
- ▶▶▶▶ Read the question: What is rabies?
- ▶▶▶▶ Ask groups to discuss their answer: a) A disease that is passed on via a bacteria b) A disease that is passed on via a virus. c) A way for dogs to show that they're angry .
- ▶▶▶▶ Get one person from each group to give you the group's answer and write it down on the board.
- ▶▶▶▶ Once all the groups' answers are on the board, give out the right answer (they are in bold) and keep a record of the teams that have the correct answer.
- ▶▶▶▶ When the quiz is over, add up every team's points to find out which team came first, second and third.
