

# WORLD FARM ANIMALS DAY

October 2<sup>nd</sup>

13 to 16 -year olds

Introduce the Five animal welfare needs by watching this video  
<https://www.youtube.com/watch?v=UBsOiwbMuxI>

If you do not have access to audio-visual equipment, ask learners to match up what they need to live a comfortable life, with what farm animals need to also live a comfortable life, using the **Welfare needs flashcards** and discuss why they think animals may have the same needs as humans.

Show learners the **Poor welfare flashcards** featuring farm animals' living conditions and ask them to share how they feel and what they think about what they see. Please, warn learners that the pictures might be distressing, however they represent the reality of a vast majority of animals. You can lead the discussion by asking, 'How do you think the animals feel in these conditions?' 'What would be the solutions?'

Ask learners to design a poster raising awareness of the way some farm animals are kept and to decide where their posters would have the most impact.
