

WORLD MONKEY DAY

December 14th

8 to 12-year olds

Read out the 10 **Monkey quiz** questions and ask learners to answer each question individually (they do not need to get into teams). There are 7 **Monkey quiz flashcards** to show your learners as you go through the answers to the questions. You can also use the **World map poster** to point at where each species is found. (This poster is on 6 pages, which will need to be assembled prior to the lesson).

Ask learners what their favourite fact is (from the 10-question quiz).

Ask learners to draw their favourite monkey and to label the picture with the corresponding monkey fact.
