

WORLD VET DAY

April 26th

8 to 12-year olds

Prior to this activity, cut out the **Role-play cards** provided, describing 7 scenarios.

Tell learners that they are going to practise being a vet and helping out an animal.

Give out a scenario card to each group and ask them to practise acting out the scene described on their scenario card. Let them know how much time they have before they need to show their scene to the rest of the class (groups that finish early can get a different scenario card.)

Ask each group to show their scene to the rest of the class.

Ask learners what they think of vets.
